EDUCATION

Kean University
2016 - 2019

- Bachelor of Fine Arts, Graphic Design

Fashion Institute of Tech.
2013 - 2015

- Advertising & Marketing Communication

SUMMARY

Front-end developer and web designer with 10 years building and supporting websites, including six years as the technical lead for VIP and churn-risk accounts on BentoBox's hosted website platform. Runs a freelance studio end to end, from discovery and scoping through build and client onboarding. Skilled at explaining technical tradeoffs to non-technical stakeholders and building working solutions quickly with AI-assisted tools like Claude & OpenAI.

WORK EXPERIENCE

BentoBox (acquired by Clover) **DEC 2020 - PRESENT**
Senior Web Designer

- Serve as the technical point of contact for the platform's VIP and churn-risk accounts, joining client calls to scope requirements and walk customers through solutions. Retained every escalated client over the past two years.
- Act as the team's technical escalation point, diagnosing responsiveness, accessibility, and third-party script issues on live sites and explaining fixes in plain terms to clients.
- Set the design team's technical standards and lead the push to extend the platform with custom JavaScript beyond its native templates.
- Built internal tooling with Astro, Supabase, and CodeMirror that consolidates data from multiple sources to speed up the team's workflow.
- Write the team's documentation and training resources, including a platform limitations reference, and mentor four designers.

Beyond Belief Web Design **AUG 2020 - PRESENT**
Owner/Developer

- Run the full client cycle for a solo studio: prospecting, discovery calls, project scoping, and closing local service businesses.
- Design, hand-code, and deploy custom sites in Astro using Netlify and Git-based workflows, integrating a headless CMS so clients can add and edit blog posts and other dynamic content themselves.
- Turn SEO and analytics data into monthly reports that show owners the business impact of their site.
- Onboard non-technical owners through DNS, hosting, email setup, and managing their own content.

Internet Creations **JULY 2019 - DEC 2020**
Graphic Designer

- Built and managed web pages in Salesforce Community Cloud and Marketo landing pages and campaigns, optimizing for conversion goals.
- Created launch, event, and brand assets for an enterprise SaaS marketing team.
